

Wood Lecterns - Lectern Two

Our compact floor lectern crafted entirely of solid hardwood will complement the most distinctive of interiors. Only the finest solid oak, walnut, cherry or mahogany is used throughout, with each unit hand finished to highlight the natural beauty of the wood.

The Model LC may be ordered with or without a built-in, custom engineered AC/DC sound system—not just an add-on. Our matched amplifier and acoustical system allow each word to be heard clearly.
